MARTIN PAUL CREATIVE CENTER CUSTOMIZES DISPLAY RACKS

March 2, 2009

Displays By Martin Paul Inc. will customize your display racks. Your racks will stand out from the rest with your logo or product name on it. We designed the HI-VIS racks so that they could be customized. We have a staff that will quickly and efficiently label the racks for you. Our talented graphics department can help you design a label, or get us the schematics for your label, and we can have the labels produced. If you prefer, you can provide us with your own labels which we can apply to the racks. We have been customizing racks for several years. We customize racks for companies like Kraft, Pillsbury, Anheuser Busch, Hansen's, Carnation, and many others.

Customized racks will immediately draw your customer's attention to your products which will insure that your products will be the one they take home with them.
